

“My family had high hopes for me, but the war got in the way and those hopes were about to be crushed. Then I got the scholarship and recovered hope. The sense of security is amazing. There is no death around every corner. I can see the blue sky without gunshots or rockets.”

E.S., University Degree student at UB,  
Programme scholarship holder

**The University of Barcelona's support programme for refugees and people from conflict areas is based on developing the human rights perspective, with two main fields of action:**

### **Academic and social integration support**

- Academic and educational support.
- Accommodation.
- Social integration (support for language learning and daily life).
- Legal advice and psychological assistance.

### **Networking and cooperation**

- Intra-academic coordination.
- Cooperation with different academic and administrative levels and NGOs.
- Information, training and awareness-raising campaigns aimed at the university community and the civil servants.

This programme develops the social responsibility of the University of Barcelona, which, in the context of a globalised world, has a firm commitment to contribute with its resources, facilities and knowledge to the construction of a peaceful and fair society based on cooperation and solidarity.
